

INDIVIDUALITY IS FUN.

Customised things are fun and really let your personality shine through. Your customer might even want to configure a frame that is not necessarily shaped to fit a particular picture. It might be designed to fit a certain wall, a special spot over the sofa, or maybe it needs to be really small to spruce up an empty space. Get inspired by walther design and let your creativity and that of your customer take flight. Have fun creating frames with your personalised dimensions.

**Over 100 different
designs.**

CUSTOMISED PICTURE FRAMES BY WALTHER DESIGN.

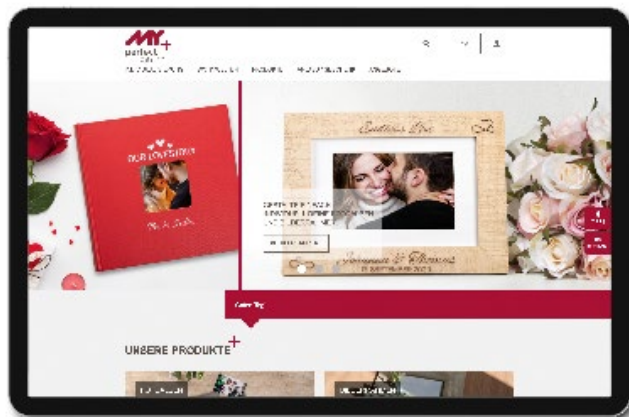

Article No. PL7600E

YOUR STYLE. YOUR PICTURE. YOUR FRAME.

It is not the sofa, table or cabinet that infuse personality into a living space, but rather the accessories and unique personal touches. Lamps, pillows, family heirlooms and great finds make a house a home. Distinctive interior design is first and foremost shaped by wall decorations, whether by photos or pictures, your own creations or valuable works of art created by someone else.

Everyone's measure of success is different. It is often the most special, unique works of art that deviate from standard dimensions. **walther design** has a solution:

Customised picture frames created to meet your customers' needs perfectly. Configure your very own personalised picture frame from walther design at www.myperfect.design in just a few easy steps.

As unique as
your needs. +

Uncompromising design.

More than 30 years of experience in the production and design of picture frames guarantee the **highest, long-lasting quality made in Germany** with the most appealing designs.

Design your own personal frame, perfectly suited to your lifestyle and the picture to be framed in the colour of your choice. Choose from more than 23 attractive solid wood frames in over 100 different colours and a wide variety of shapes. To ensure that your picture is optimally showcased, you and your customer can select premium clear or anti-reflective glass. Anti-reflective glass is especially useful in very bright rooms, where the matte finish will minimise the disruptive reflections caused by direct sunlight.

The frame is completed with a perfectly fitting passepartout. Our cutting service produces passepartouts in your desired dimensions from sturdy, acid-free board with precision bevel cuts. Here, you also have a wide variety of colours to choose from.

YOUR FRAME. STEP BY STEP.

walther design makes ordering frames with custom dimensions as easy as it can be. The walther design frame configurator will get you to your desired frame in just a few self-explanatory steps. A detailed overview of our service offer with frame contour drawings and corresponding colour selections make it easy to come to a decision. At the end of the configuration process, you will be shown a visual rendering of your order, so that you can check it carefully. A back panel, hanging and a practical closure system are included for landscape or portrait pictures in the delivery.

We are happy to fulfil special requests.

Depending on what you or your customer have planned, it is also possible to simply order a passepartout or an empty frame without glass or a back panel. Or you can create it as an extra-special personal gift for a wedding or a birth by having the frame or glass laser engraved or finished with UV digital printing.
